	<i>Description: Tunnel in under foundation to replace sewer system supplying the Men's and Women's restroom's for the office at suite 200. This includes making an access hole at the sewer cleanout located at the end of the system, just outside of the corner office. An additional access hole and tunnel is needed to replace the damaged section of line on the building drain near the building sewer as it heads outside towards the city sewer tap. An additional access hole will be needed on the South side of the building to tunnel in under the warehouse restroom. The existing cast iron sewer under the slab for the warehouse restroom will be removed and replaced with schedule 40 pvc. All new pro grade material with stainless steel support system included. Post repair plumbing test, city inspection, and backfill of soil/clean.</i>
